

Job Title: .Net Developer

About the company

- WorldBackups is a SaaS product that allows IT Administrators to backup their corporate servers and desktops securely over the Internet to our secure servers. The real 'value' of our service is in the level of support we provide.
- We distribute our product through Resellers and Affiliates and sell directly to SMEs and medium sized corporates.

Job Description:

- You will be assisting in the development of the existing framework for WorldBackups.net and the Reseller portal and billing engine.

Qualifications and experience:

- You will need at least 5 years experience (where relevant) in .Net 2.0 (VS 2005), .NET 3.5 (VS 2008), VB.NET, ASP.NET, AJAX, VSS, Hyper V, SQL Server 2000/2005, Crystal Reports, XML, HTML, CSS, JavaScript, IISweb, SSL, encrypted pass-thru authentication, error handling, logging and transaction management.
- Excellent communication skills and some experience of technical presentation.
- Experience of MS Dynamics CRM4 and Change Management would also be an advantage.

Responsibilities:

- You will be reporting to the Technical Lead.
- You will be responsible for providing fault resolution to resellers and our corporate customers.
- Some travel to France and the USA may be required.

Package:

- You will be working with one of the UK's leading integrators of disaster prevention and recovery solutions.
- Flexi time working and the opportunity to work from home.
- Formal ongoing specific vendor and Microsoft training offered.
- Excellent salary and benefits package.
